

JOKARI® CABLE CUTTER WITH HOOK BLADE, 8-28 MM Ø, STANDARD
Article number: 121010

»Jokari® cable cutters: cable cutters proven millions of times over for circular and longitudinal cuts. Cutting depth is individually adjustable via a screw, ensuring that damage to the inner conductors is prevented. Handle shells made of wear-resistant polyamide. Both the tips of the internal cable cutters and the cutting edges of the attached bow blades are coated with titanium nitride. At approximately 500°C, titanium nitride is vapor-deposited onto the cutting blade in a vacuum chamber using the PVD process. The refined surface structure and extremely high hardness result in excellent gliding properties and high resistance to wear and abrasion. TiN-coated knives offer significantly greater durability and cutting performance. Standard version with an enlarged adjusting screw and a hook blade with a diameter of 8-28 mm.

Length (mm)	80 mm
Width (mm)	31 mm
Height (mm)	255 mm
Weight (kg)	0,094 kg

Attribute	Value
Protective insulation 1000 V	No
total length	165 mm
Material of the handle	Kunststoff
Blade length	29 mm
blade shape	Hakenform
Blade material	sonstige
Cuttermesser	No
With sliding shoe	No
With scraper	No
Foldable	No
With protective cover	Yes
Extendable	No
With locking mechanism	No
Automatic retraction	No
blade height	- mm
Cable knife	Yes
